

Let NW Physiatry help.

Recover, Restore, Rejuvenate!

As a group of physicians at Northwest Physiatry Associates, we hold board certifications or eligibility in Physical Medicine and Rehabilitation and Electrodiagnosis as well as certification in Pain Medicine. Our doctors have over 41 years of combined experience in physical medicine and rehabilitation delivered through clinical practice in office, hospital inpatient rehabilitation, skilled nursing, and home health care settings. We are confident in our ability to manage a broad spectrum of musculoskeletal and neurological problems and to reach the goal of maximal functional improvement.
